

NATURE'S WAY

MINIMUM ADVERTISED PRICE POLICY

Nature's Way Brands, LLC ("Nature's Way") is hereby adopting the following unilateral Minimum Advertised Price Policy (the "MAP Policy") designed to protect the long-term strength and integrity of its brand, and retailers' investment in Nature's Way and its products, by helping retailers engage in advertising that best conveys to customers the value of Nature's Way's products.

The MAP Policy applies to all advertising of the products listed in the Nature's Way MAP Schedule ("Products"), attached as Schedule A, by all retailers and resellers (collectively, "retailers") of Products in the United States. The MAP Policy applies to advertised prices, not the prices at which Products are sold, and each retailer is free to set its actual resale price for any Product independently. The MAP Policy is effective as of January 15, 2024 and supersedes all prior Nature's Way policies regarding minimum advertised prices applicable to retailers.

The Minimum Advertised Prices for Products are listed in Schedule A of this MAP Policy.

A. The MAP Policy

B. be updated, revised, adjusted, suspended, terminated, or modified by Nature's Way from time to time, at its sole discretion. Any such modifications will be made available to all retailers.

C. For purposes of this MAP Policy, "advertisements" and "advertising" mean all promotional or pricing information related to Products displayed over the Internet or similar electronic media including websites. "Advertising" and "advertisement" do not include pricing and promotional information displayed solely on premise or via in-store materials that are not distributed to customers.

Notwithstanding the foregoing, pricing information displayed at the final online checkout stage of a transaction is not considered "advertising" under the MAP Policy. The "final online checkout stage" is the stage when a Product is put into a shopping cart that contains the customer's name, shipping address, email address, and payment information. Pricing information in the "shopping cart" or "checkout" stages must be obscured technically so that it is not retrievable by shopping and pricing engines, and not displayed on search page results within the retailer's own website.

D. While retailers remain free to advertise and sell Products at any price, they deem appropriate, it is a violation of this MAP Policy for a retailer to advertise any Product at a price lower than the Minimum Advertised Price. Such advertisements include, but are not limited to:

- i. Offering coupons, discounts, reseller rebates, or other inducements that, when applied, result in a price lower than the MAP, including through use of a storewide sale, promotional code, or other similar provision that can be applied to Products.
- ii. Advertising "bundling" or including a free or discounted product ("Bundle") (whether made by Nature's Way or another manufacturer) with a Product if the effective or stated price of the Bundle reduces the advertised price of the Products in the Bundle below the combined Minimum Advertised Price of the Products in the Bundle.
- iii. Permitting any third-party to alter the advertised price for any Product.

E. For multipack offers the Minimum Advertised Price of the multipack is the quantity of SKU(s) in the multipack multiplied by the respective Minimum Advertised Price of the SKU(s) that comprise said multipack.

F. Any strike-through or other alteration of the Minimum Advertised Price is prohibited.

G. The MAP Policy does not establish maximum advertised prices. All retailers may advertise Products at any price in excess of the Minimum Advertised Price.

H. Direct or indirect attempts to circumvent this MAP Policy also violate the MAP Policy, however, the MAP Policy does not in any way limit the ability of any retailer to advertise that “they have the lowest prices” or they “will meet or beat any competitor’s price,” or that consumers should “call for a price” or phrases of similar import as long as the price advertised or listed for Products is not less than Minimum Advertised Price.

I. From time to time, Nature’s Way may permit retailers to advertise one or more of the Products covered by this MAP Policy at prices lower than the MAP for a specified period. In such case, Nature’s Way will notify its retailers in advance of the details of the limited suspension or modification of this MAP Policy.

J. Including in any advertising for a Product covered by this MAP Policy a gift card, coupon or any other type of discount that would effectively immediately reduce the advertised price of the Products below the Minimum Advertised Price then in effect for such Product will constitute a violation of this MAP Policy. Advertising that includes a gift card, coupon, or any other type of discount on future purchases (regarding whether or not for Products) shall be evaluated under the same guidelines as described in Section C regarding Bundling.

K. This MAP Policy does not constitute an agreement between Nature’s Way and any other entity. Nature’s Way does not solicit, nor will it accept any assurance of compliance with this MAP Policy from any retailer or any other party, and each retailer must choose independently whether to comply with this MAP Policy. This MAP Policy is not negotiable and will not be altered for any retailer. Nature’s Way’s employees and agents, including sales representatives, are not permitted to modify, interpret, or grant exceptions to this MAP Policy; solicit or make any agreement with any retailer with respect to the advertising or pricing of Nature’s Way Products; or otherwise discuss any aspect of this MAP Policy with any retailer, including without limitation, the retailer’s compliance or any other retailer’s compliance with the MAP Policy. Questions regarding this MAP Policy must be submitted in writing to Nature’s Way’s MAP Policy Administrator at MAPcompliance@naturesway.com. Nature’s Way will not accept any other form of communication regarding this MAP Policy.

L. Nature’s Way monitors the advertised prices of retailers, either directly or via the use of a third-party agency or tool.

M. The MAP Policy will be enforced by Nature’s Way in its sole discretion and without notice. Retailers have no right to enforce the MAP Policy. In the case of a violation of the MAP Policy, Nature’s Way will take the following actions:

First Violation: Nature’s Way will notify the seller in writing of the violation.

Second Violation: For a seller’s second violation, Nature’s Way will notify the seller in writing of such violation and will immediately place the retailer’s account on a shipping hold and/or restrict the retailer’s ability to purchase Products for thirty (30) days.

Third Violation: For a seller’s third violation of this MAP Policy in a twelve (12) month period following the First Violation, Nature’s Way will notify the retailer in writing of the violation and will terminate the retailer’s authorized retailer status, revoke the retailer’s right to purchase and resell Products, and cease supplying the retailer with Products.
